

VitrA

Happy and safe steps with VitrA Tiles

Special solutions for nurseries and children's living spaces

VitruA

It's all about inspiration

The process begins with questions posed by the design discipline to understand needs, desires and choices. Designed by Vitra, an extraordinary wealth of attractive combinations help satisfy these needs and desires.

Improved personal hygiene

Vitra's continuous research into human health introduces new technologies for improved hygiene in the bathroom. These solutions raise the personal hygiene experience to a new level.

Collaboration with designers

Vitra works with acclaimed industrial designers from around the world. Not only do these collaborations with top talents improve product functionality, they result in entirely original collections.

The complete bathroom

Exploring physical and emotional needs, Vitra invests in designs that encompass every essential element in the bathroom.

High powered perfection

Seven high tech production facilities in Turkey and Russia manufacture sophisticated designs, maintaining extremely high standards whilst progressively reducing Vitra's ecological footprint.

Technology lights up the future

The Vitra Innovation Centre serves as the headquarters of the brand's R&D activities deploying a powerful engineering team, that out-performs the bathroom industry with new solutions and technologies.

Vitra across the world

Bathroom designs greet customers around the world through 2,000 sales points in over 75 countries, including 150 exclusive Vitra showrooms in Istanbul, London, Cologne, Moscow, Dubai, Mumbai, Delhi, and other major cities.

A pledge for the future

Vitra embraces Blue Life, a set of guidelines devised to mitigate our impact on the environment and which embody our production, design and management philosophy.

Experience aesthetics, hygiene and comfort with your babies and children in all your living spaces.

Our designs integrate innovative solutions that draw inspiration from living life to the fullest so that you can feel safe and comfortable at every step, as you create joyful living spaces for yourself and your loved ones.

By combining modern and colourful VitrA Tiles designs with innovative surface technologies such as easy-to-clean and anti-slip solutions, we provide living spaces for families and children to enjoy and feel safe, while we strive to spark children's imaginations with our specially designed collections.

Modern and colourful designs

Designs developed with modern, colourful and smart solutions in mind, where children can experience their lively and vivid world with freedom and joy.

Easy-to-clean

Thanks to its easy cleaning feature, tiles with **VitrA V-Safe Mini** surface technology offer advanced hygiene and provide healthy living spaces for families at all times.

Anti-slip and hygienic surfaces with VitrA V-Safe Mini

With **VitrA V-Safe Mini** tiles featuring anti-slip surface technology, enjoy your time with your babies and children safely and with pleasure, without fear of slipping and falling.

Children can take their first steps safely and happily in their living spaces with **VitrA V-Safe Mini**'s anti-slip, easy-to-clean and hygienic features.

The V-Safe Mini Technology beneath happy, little steps

VitrA V-Safe is a surface technology that provides anti-slip, hygienic and easy-to-clean tile surfaces.

VitrA V-Safe is suitable for both indoor and outdoor surfaces, especially in living spaces that require extra safety, hygiene and durability such as nurseries and children's rooms, bathrooms, kitchens, swimming pools, SPAs, and industrial areas.

VitrA V-Safe Mini tiles provide safe living spaces for babies and children thanks to their anti-slip, soft-touch and easy-to-clean technologies.

Product Information, Selection and Use

When ordering ceramic tiles specify the areas of use.
Before tile setting, verify the tonality and calibration numbers, as claims regarding these specifications cannot be accepted after tile setting.
Crazing of glass borders occurs naturally in ceramic tiles.
We recommend using VitrA Fix grout and adhesive materials with VitrA Ceramic Tiles.
The colours of tiles in the catalogue may not reflect the exact colours of the products.
To ensure compatibility of products to be used with complementary parts, a special order note should be added requesting the simultaneous production of all tiles. There may be a colour tone differences in products produced at different times.
VitrA Karo San. ve Tic. A.Ş. reserves the right to change its products and technical specifications without giving prior notice.
